1. INTRODUCTION

STATISTICS

This document reports the details of 1581 individuals, of which 775 are male and 796 are female. Of the 958 individuals with recorded birth and death dates, the average lifespan was 52.2 years. Of these, 497 males averaged 52.3 years, and 461 females averaged 52 years.

Within the Direct Relations section, the longest living male was John Henry Berger³¹⁹, who died aged 100, and the longest living female was Katherine de Sutton⁹¹⁶, who died aged 102. Among the indirect relations, the longest living male was Isom George Graham¹¹²², who died aged 118, and the longest living female was Sarah Catherine Petersen Petersen¹¹²⁵, who died aged 93.

There are 407 families reported. 330 of these families are reported as having children, with an average of 3.6 children per family.

THE NARRATIVE SECTIONS

The "Direct Relations" section reports the details of individuals who have a direct family connection to Steven Ronald Dudley³¹. The section is broken into sub-sections for each generation, within which the individuals are listed in order of closeness of relationship. The sequence numbers are used throughout the document to cross-reference back to the detailed entry of an individual.

An "Indirect Relations" section reports the details of individuals who do not have a direct family connection to Steven Ronald Dudley³¹, but do have direct family connections to an individual who is reported within the "Direct Relations" section, or within another section of indirect relations.

With a narrative section, each generation is shown as a separate subsection, within which the individuals are listed in order of the closeness of their relationship to Steven Ronald Dudley³¹.

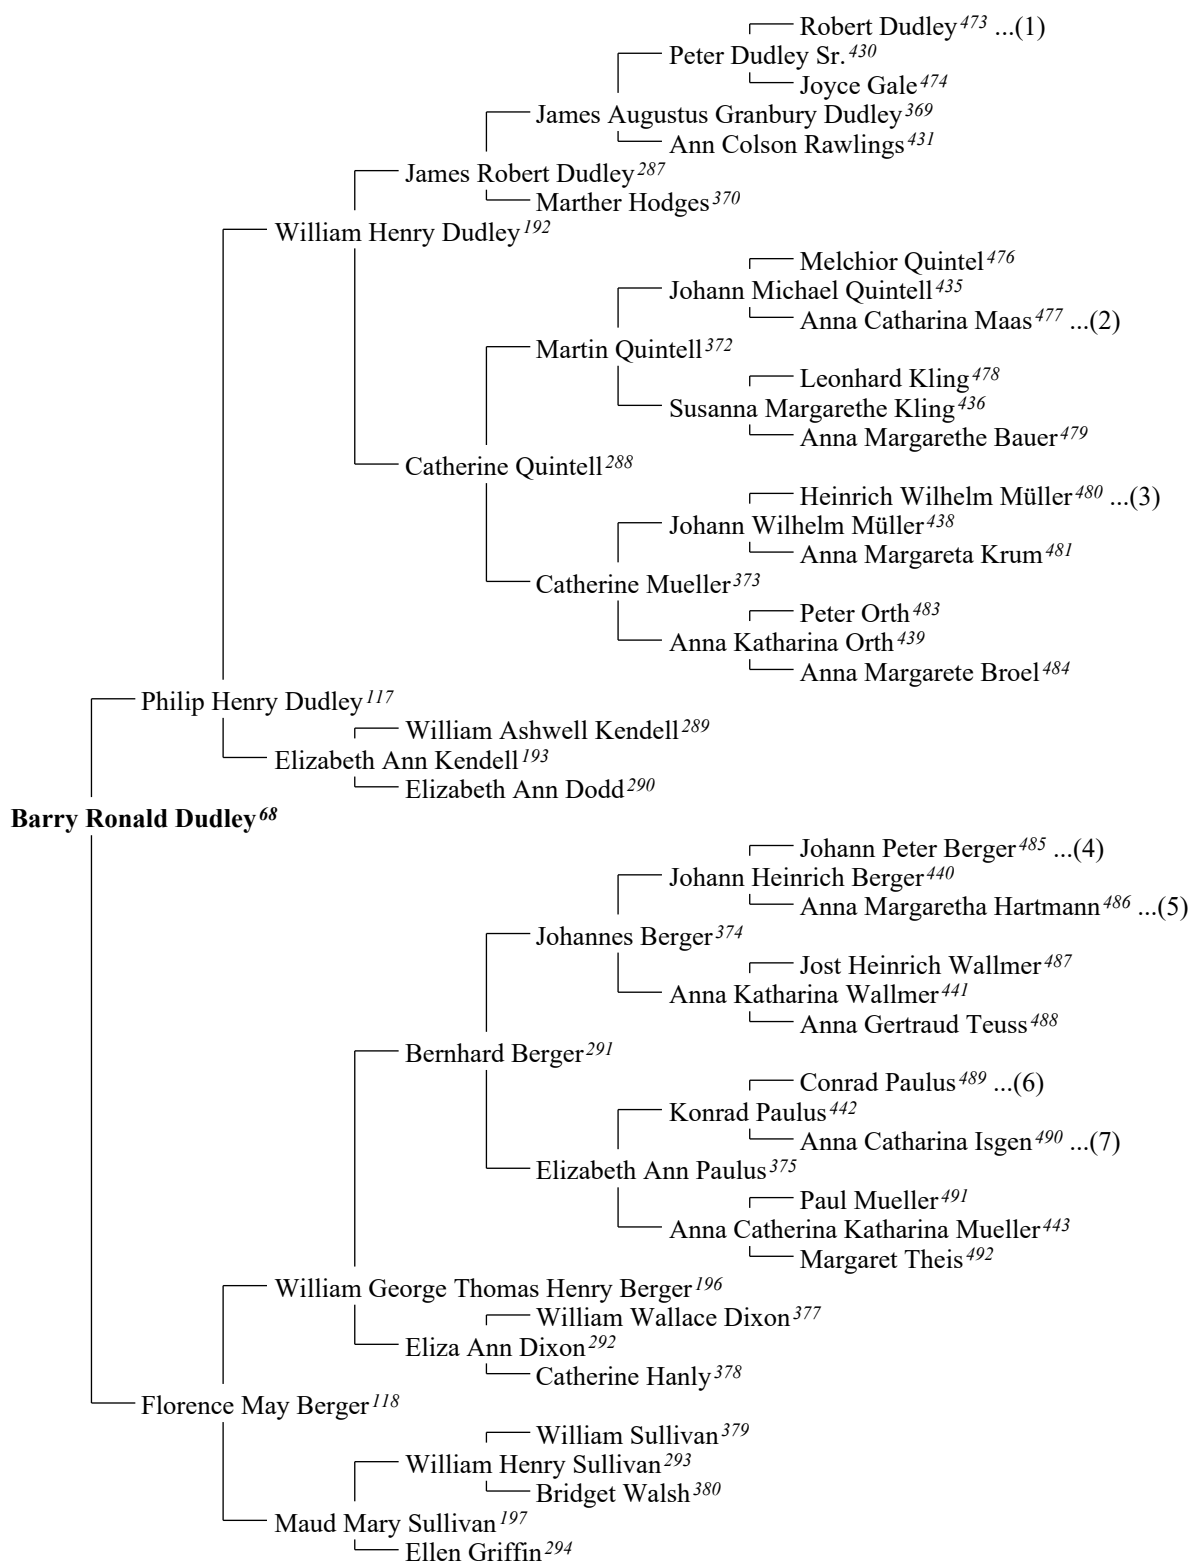

FAMILY TREES SECTION

Each family tree shows the reported children, parents, grandparents and great-grandparents of a family group. In order to reduce redundancy, any family group which is wholly included within another family tree may not be reported separately.

Above each of the great-grandparent boxes (top row), a continuation family tree reference number is shown if the great-grandparent is recorded as a child in the continuation tree. A continuation reference number is also shown to the left of a grandparent or parent box if that individual has siblings reported in the continuation tree; and beneath a child box (bottom row) if that individual has children reported in the continuation tree.

In cases of multiple marriages, a continuation reference number preceded by "=" is shown to the right of a parent box. This number references the previous and/or next tree in which that individual is shown with another partner.

In Doyne C. Bell's work, "Notices of the Historic Persons Buried in the Chapel of St Peter ad Vincula in the Tower of London", he mentions that in the nineteenth century (at the time the chapel was renovated and the remains examined):||"the grave into which, at on the 19th May, the old elm-chest containing the remains of his sister Anne was cast, |was dug by the side of him [George Boleyn].""||The body of Anne Boleyn was one supposedly identified by a|Dr. Mouat due to her slender neck and long fingers (only 5 on each hand). However, it must be said that forensic science was not as sophisticated as today.Many of the bones buried beneath the chapel floor, including those of Anne Boleyn and Jane Grey, were exhumed and moved. They now lie as a co-mingled group under a wall and unrelated monument to the left of the altar (as you face the altar).
